PROFILE

Full-Stack Developer with 3+ years of experience building scalable web applications and optimizing performance across diverse tech stacks, including JavaScript, React, TypeScript, NodeJS, ExpressJS, MongoDB, PostgreSQL, and MySQL. Adept at collaborating with distributed teams across 5+ time zones to deliver impactful solutions. Successfully mentored 5+ junior developers monthly, fostering growth and boosting team productivity. Proven track record of enhancing sales metrics by 10% through innovative technical solutions. Excited to contribute my technical expertise and leadership skills to a dynamic, forward-thinking tech organization.

PROFESSIONAL EXPERIENCE

11/2024 – present
Kampala, Uganda

Frontend Developer

Tracecorp Solutions 

Utilizing JavaScript, Typescript, React, Tailwind CSS, Anti Design, and Node.js, I excel in crafting visually stunning, user-friendly, and responsive web experiences. I continuously enhance and maintain these creations to cater to end-users' needs. Throughout my internship, I showcased my practical skills and collaborated with fellow developers to construct responsive websites and applications.

05/2024 – 11/2024
Kamwokya, Uganda

Fullstack Developer

Pinnisoft 

I possess proficiency in both front-end and back-end development, with hands-on experience in a diverse array of technologies, such as JavaScript, React, Typescript, Node.js, Express.js, and SQL. This expertise empowered me to construct and maintain web applications, enabling the creation of engaging user interfaces and effective management of server-side functionality and data storage.

10/2023 – 04/2024
Remote, Nigeria

Frontend Developer

CoinPay

Utilizing JavaScript, ReactJS, and Tailwind CSS, I excel in crafting visually stunning, user-friendly, and responsive web experiences. I continuously enhance and maintain these creations to cater to end-users' needs. Throughout my internship, I showcased my practical skills and collaborated with fellow developers to construct responsive websites and applications.

06/2023 – 03/2024
San Francisco, Remote

Fullstack Developer

Microverse

I am proficient in both front-end and back-end development, working with a diverse range of technologies, including JavaScript, React, Bootstrap, Ruby, Ruby on Rails, PostgreSQL, and MySQL. This experience has allowed me to build and maintain all components of web applications, adopting a holistic approach to web development. My capabilities encompass creating user interfaces and managing server-side functionality, as well as data storage.

12/2019 – 11/2022
Kyengera, Uganda

Sales Agent

City Designers

- Boosted online sales by 10% through the introduction and management of online channels.
- Recruited 20+ employees, increasing weekly production by 40%.
